

## Nutrabolics Growth Factor

Pris: 269:-

Smak: Lime, grape

Storlek: 360g

Grupp: Prestationshöjare

Köp

### Growth Factor

The secret truth about amino acids is this: regular amino acid supplements are lousy muscle-builders for hard-training athletes. You see, the majority of regular amino acid supplements are destroyed by your stomach acids before they can reach your muscles. As a result, you have to take more amino acids to see any effect, and this puts stress on your body and drives up the cost of amino acid supplementation. Growth Factor by Nutrabolics is a new and powerful amino acid supplement that sets a new standard for amino acid supplementation. Growth Factor uses advanced esterification science to protect amino acids from stomach destruction, and this results in more amino acids being delivered to your muscles more effectively than ever. Growth Factor will give you amazing results fast, and at a fraction of the cost of using primitive regular amino acid supplements.

Portionstorlek: 1 skopa (12g)

* Rekommenderat dagligt intag baserat på en 2000 kaloridiet.	
<b>Ingredienser:</b> Natural and artificial flavor, fd&c yellow#6, fd&c yellow#5 and sucralose.	

### Growth Factor Benefits

- \* Builds muscle
- \* Burns fat
- \* Accelerates exercise recovery
- \* Scientifically proven ingredients
- \* Advanced esterification technology
- \* More effective
- \* Superior absorption
- \* Smaller dosages
- \* Stomach friendly

### Dosering

Combine 1 scoop of growth factor with 1 cup of ice cold water and stir or shake until dissolved. For best results sip 1 serving during intense exercise and another 1 serving after intense exercise.

### Förpackning

Plastburk 360g.
